

# SpeedCoat™

## Protect Your Baby Faster. (Much Faster!)

Appearances do matter. To you and to everyone you know. But time is limited and you need a FAST and EASY way to give your airplane just what it needs; a protective sealant and gloss that looks great and goes on FAST and EASY.

SpeedCoat is the best product when you have limited time and demand perfection. This is an easy hand application. No mechanical polishing. Just spray, wipe and hand buff. One coat will give you UV protection and create a lustrous barrier.

More coats yield more protection and a higher gloss without any residue buildup.

### Features

- ▶ Easy hand application
- ▶ No wax or silicon residue left behind
- ▶ Use on multiple surfaces - paint, metal, composite, plastic and fabric
- ▶ Long lasting formula outlasts any wax or silicon application
- ▶ Low drag surface treatment

### Benefits

- ▶ No mechanical buffing required
- ▶ Silicone free means no fear of composite or paint damage
- ▶ Great for windshields too. One application for all surfaces
- ▶ Retards damaging effects of birds, acid rain, dust and dirt
- ▶ More distance on less fuel

# SpeedCoat

- Available in 16 oz bottles and 4 pack bottle kits.
- One bottle is more than enough to treat an average sized aircraft.
- Long shelf life.
- Environmentally friendly.
- Silicone Free.
- No residue buildup.
- Hand only applications.
- No mechanical buffing required.

Available at FBO's and LoPresti Partners everywhere

**Protect Your Baby Faster.  
(Much Faster!)**

*"How much faster? In just a matter of minutes you can treat your entire airplane.*

*You can coat paint, bare metal, composite and fabric, windshields, glareshields and even your interior.*

*Just a simple spray, wipe, hand buff and you are done.*

*Your baby will not only shine but you will have added great UV and environmental protection. Dust, dirt, soot, bird droppings are easy to clean off of a **SpeedCoat** protected airplane"*
